ABOUT US

Signland (Pty) Ltd was established in 1991 and has grown from strength to strength, furnishing our clients with quality signage and abundant customer service.

At Signland we understand the importance of creating an impressive impression of your business, through signage, which will drive brand activation and revenue growth.

Signland is a turnkey solution for your signage requirements. We design, print, manufacture and install on site locally, nationally and internationally, catering for small to large businesses. Our products are of excellent quality and our pricing is very competitive!

We believe that each client is valuable and unique, therefore we custom design a brand activation plan according to their needs. We also pride ourselves in providing our clients with practical advice from concept to completion, professional service, offering our expertise and resources to ensure their project is completed in a timely and cost-effective manner.

We extend our services to South Africa and its neighbouring countries as well as abroad!

HOW WE WORK

****Consultation and Design****

Signland works with our clients to understand their needs, brand identity, and objectives. We then create custom designs tailored to these specifications.

****Fabrication****

Once the design is approved, the signage is fabricated using high-quality materials and manufacturing techniques.

****Installation****

Signland coordinates the installation process, ensuring that the signage is installed safely and securely at the designated location.

****Testing and Quality Assurance****

Before finalizing the project, the signage is thoroughly tested to ensure it meets quality standards and functions as intended.

****Maintenance and Support****

Signland offers a customized to client solution include ongoing maintenance services to keep the signage in optimal condition. This may include cleaning, repairs, and updates etc.

****Print and Application****

Signland offers small to large format printing and quality vinyling, on and off site.

DIMENSIONAL LETTERS

Dimensional letters, also known as raised letters or 3D letters, are individual letters or logos that are typically cut, molded, or fabricated to stand out from a surface.

At Signland, we produce powerful, quality impressions with LED lit dimensional signs.

ILLUMINATED LIGHTBOXES

Illuminated lightbox signage display incorporates built-in lighting to make the graphics or messages on the display stand out. They consist of a quality frame, a translucent graphic panel, and internal lighting components. These lightboxes are waterproofed for outdoor usage.

CHANNEL LETTERS

Channel letters are a specific type of dimensional letter commonly used in signage. Unlike flat dimensional letters, channel letters have a three-dimensional structure with hollow interiors. They are typically made of metal, such as aluminum, and often feature acrylic faces.

SERVICES

INDOOR / OUTDOOR BRANDING

A business is literally incomplete without signs. Businesses of all sizes, whether located in a big city or in a small town, need signs so that they establish their brand and promote their products and services.

Promotional materials, hanging banners, roll up banners, sticker branding, pop banners, back drops, vehicle branding, media, signage, structural branding and much more.

BRAND IDENTITY

At Signland, we understand that brand identity is crucial for establishing a strong and memorable presence in the marketplace. It encompasses everything from your logo, color scheme, and typography to your messaging, values, and overall aesthetic.

PRINT MEDIA

Print media has been a staple of communication and dissemination of information for centuries, and despite the rise of digital media, it continues to play a significant role in various industries and contexts.

It encompasses a wide range of formats, posters, flyers, business cards, vinyl, contra vision and more.

****All our materials carry a 7 year warranty****
